Russian River Tributaries Emergency Regulation Informational Order

- Please fill out and submit a separate web form below for *each* water source (i.e., surface water diversion, groundwater diversion, or water supplied by an entity to the specified parcel). As you move through the form, use the browser's back function to return to a previous section to revise your information.
- To print or review the example forms, [click here](#).

Questions regarding this form can be directed to: Phone: 916-322-8422 or Email: rr_tribs_emergency_reg@waterboards.ca.gov

If you have previously started this form you can continue by entering your Identification Code and Password, and clicking "Submit."

If you are adding another water source for this Identification Code, please check here: ☐

You will need to note the time stamp added to the Identification Code to access the additional record for the additional water source. Your Password will remain the same.

Note: Start by selecting your Identification Code, and entering your Password - 3 capital letters followed by 3 numbers (e.g., ABC123).

The Identification Code is your 12-digit parcel number including dashes (e.g., 123-456-789-000) or your 7-digit water supplier number (e.g., 4901234) as shown on the letter you received by mail.

The password will be the six-digit code shown on the letter you received by mail.

Items marked with an asterisk* are required.

Enter Your **Identification Code*** here: . Password*:

If you don't know your Identification Code or Password, please contact:

Email: rr_tribs_emergency_reg@waterboards.ca.gov

Phone: 916-322-8422

Russian River Tributaries- Informational Order

EXAMPLE: SURFACE WATER DIVERSION

Pre-1914 Appropriative Water Right Claim

All surface water diverters, including those with riparian and pre-1914 water right claims, are required to submit information about their surface water diversions to the State Water Resources Control Board on a regular basis. Most surface water diversions require a Permit or License, or the filing of a Statement of Diversion and Use with the State Water Resources Control Board's Division of Water Rights. Post-1914 Appropriative Water Rights require a permit or license. Riparian water rights and Pre-1914 Appropriations require submittal of statements. If you are unsure if you need to file a Statement of Diversion and Use, or would like to register a previously unreported surface water diversion, please contact the State Water Resources Control Board's Division of Water Rights at: 916-341-5300, or visit http://www.waterboards.ca.gov/waterrights/board_info/faqs.shtml. Filings and Registrations of previously unreported surface water diversions should occur immediately.

Information related to the surface water diversion and use of springs can be found online at:
http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/#general.

Water Source Selected: **Surface Diversion** Water Right Type:

Begin by selecting your Water Right Type and Application ID from the drop-down boxes.

If you know the type of water right you have, but your Application ID is not listed, select the appropriate water right type, and Application ID 'Not listed'. If your Application ID does not appear on this list and you are unsure of the type of water right you have, please select Water Right Type 'Other Surface Water Diversion' and Application ID 'Not Listed', then describe the diversion in the space provided in the next section. Include your Application ID if you have one.

Select Water Right Type: 

Select Application ID: 

Select "Pre-1914 Appropriative Water Right Claim" here

Select Water Right Application ID here

Pre-1914 Appropriative Water Right Claim

Year of Priority claimed. If you are not sure of the priority date claimed, provide the date of first use with continuous diversion thereafter. *

Water Use Instructions: Reminder: To aid in completing this section, it is recommended you print and review the [sample forms](#) completely. Please record the amount of water diverted/used from this source. For 2015, report the actual use for January through July, and the projected use for August through December.

Russian River Tributaries- Informational Order

EXAMPLE: SURFACE WATER DIVERSION

Pre-1914 Appropriative Water Right Claim

For Surface Water Diversions: "Diversion to Storage" and "Use from Storage" applies to diverters with on-stream or off-stream reservoirs, ponds, or tanks except for small domestic water tanks or small pressurizing tanks. "Diversion to Storage" means water that is removed from a stream and put into the storage facility. "Use from Storage" means stored water that is put to beneficial use. "Direct Diversion" means water that is diverted from a stream and immediately put to beneficial use. Surface water diverters with on-stream storage only should not report a diversion rate if the diversion captures the full flow of the stream when filling. Use the unit converters below to convert all data to acre-feet (volume).

All diverters must estimate their rate of diversion in cubic feet per second and volume of use in acre-feet, as appropriate. For information on estimating your use, please visit http://www.waterboards.ca.gov/waterrights/water_issues/programs/diversion_use/wm_alt_mthds.shtml

To convert, enter a value in one box, then click in the other box to see the result. Do not use commas.

Gallons per Minute to cubic feet per second:

1 gallon per minute (GPM) = 0.00222801666 cubic feet per second (CFS)

GPM = CFS

Gallons to acre-feet:

325851.43 gallons = 1 acre-foot.

gallons = acre-feet

MONTHLY WATER USE FOR SURFACE WATER DIVERSION (IN ACRE-FEET OR CUBIC FEET PER SECOND - USE CONVERSION TOOLS ABOVE IF NECESSARY)

THE USE INFORMATION ENTERED IN THIS TABLE IS THE SAME INFORMATION SUPPLIED WHEN SUBMITTING STATEMENTS OF DIVERSION AND USE OR ANNUAL REPORTING FOR POST-1914 APPROPRIATIVE WATER RIGHTS.

Russian River Tributaries- Informational Order

EXAMPLE: SURFACE WATER DIVERSION

Pre-1914 Appropriative Water Right Claim

ENTER ONLY NUMERIC VALUES. DO NOT INCLUDE UNITS. DO NOT LEAVE ANY FIELD BLANK. IF NO DIVERSION OR PROJECTED DIVERSION FOR A GIVEN MONTH, ENTER ZERO (0). PLEASE NOTE THAT BLANK FIELDS OR ANY ENTRY WITH NON-NUMERIC CHARACTERS WILL APPEAR AS ZERO (0.000) AFTER SUBMITTAL.

Do Not use comma separators.

The State Water Board has NOT received a report for your Application ID (i.e., **Not Listed** was selected for the Application ID.) You will **NEED** to enter diversion and use data for 2014. All parties must provide 2015 diversion and use data.

Water Transfer Section:

Water Transfers include the sale of surface water diverted under a Pre-1914 Appropriative Water Right Claim or Post-1914 Appropriative Water Right. The water that is transferred is diverted from the stream in another location (i.e., a location other than the place of use designated for the water

right).

Was any water diverted under this Appropriative Water Right transferred in 2014 or 2015? ☐ Yes ☐ No (if yes, please describe in Comment box on next page).

If yes, please state quantity transferred in acre-feet: (AF)

Transfer occurred from Day, Month, To Day, Month.

This transfer was approved by: ☐ State Water Board, ☐ DWR, ☐ USBR, ☐ SCWA.

[Submit Information and Go to Confirmation Page](#)

- Step 1: Submit this response form by clicking the "Submit Information and Go to Confirmation Page" button above.

Russian River Tributaries- Informational Order
EXAMPLE: SURFACE WATER DIVERSION
Pre-1914 Appropriative Water Right Claim

- Step 2: Click on the "Start Page" link near the top of the Confirmation Page.
- Step 3: Log in again using the same Identification Code and Password provided in your Information Order letter.
- Step 4: **Check the box** "If you are adding another water source for this Identification Code, please check here". This will create a modified Identification Code for this additional water source. Make a note of this new Identification Code. It will be your original Identification Code plus a different eight-digit number for each additional water source.
